What is Ulvent?

Ulvent is a web-based platform that aims to help the management and documentation of work programs (proker) or events held by student organizations at the University of Indonesia.

This application goal is to help organizations (ex: BEM, Himpunan, and UKM) to easily manage, publish, and track the status of their events, as well as making it more accessible for participants to register and updated.

Main Features

Ulvent

Autentication and Role

- General Role: View and search for events
- Organization Role: CRUD their own work program events
- Admin Role: CRUD all data and view global statistics

Project/Event Management

- Create, edit, and delete events
- Event categorization (Art, Sports, Competition, etc.)

Activity Statistics

- Number of event participants
- Participants satisfaction towards the event (rating)

Search and Filter

- Based on category and organization

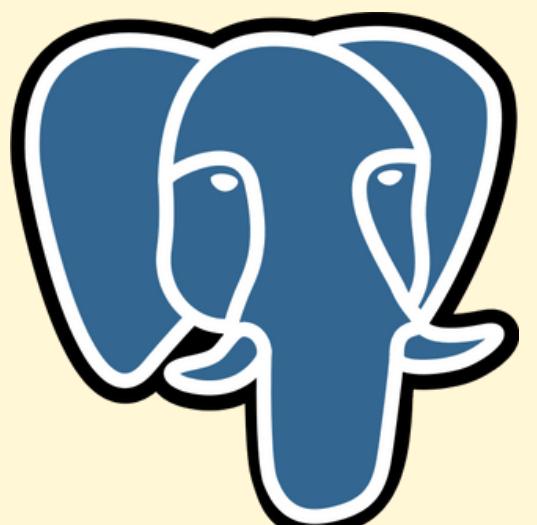

Tracking status

Status: Planning, Progress, Completed

Tools/Framework

Frontend

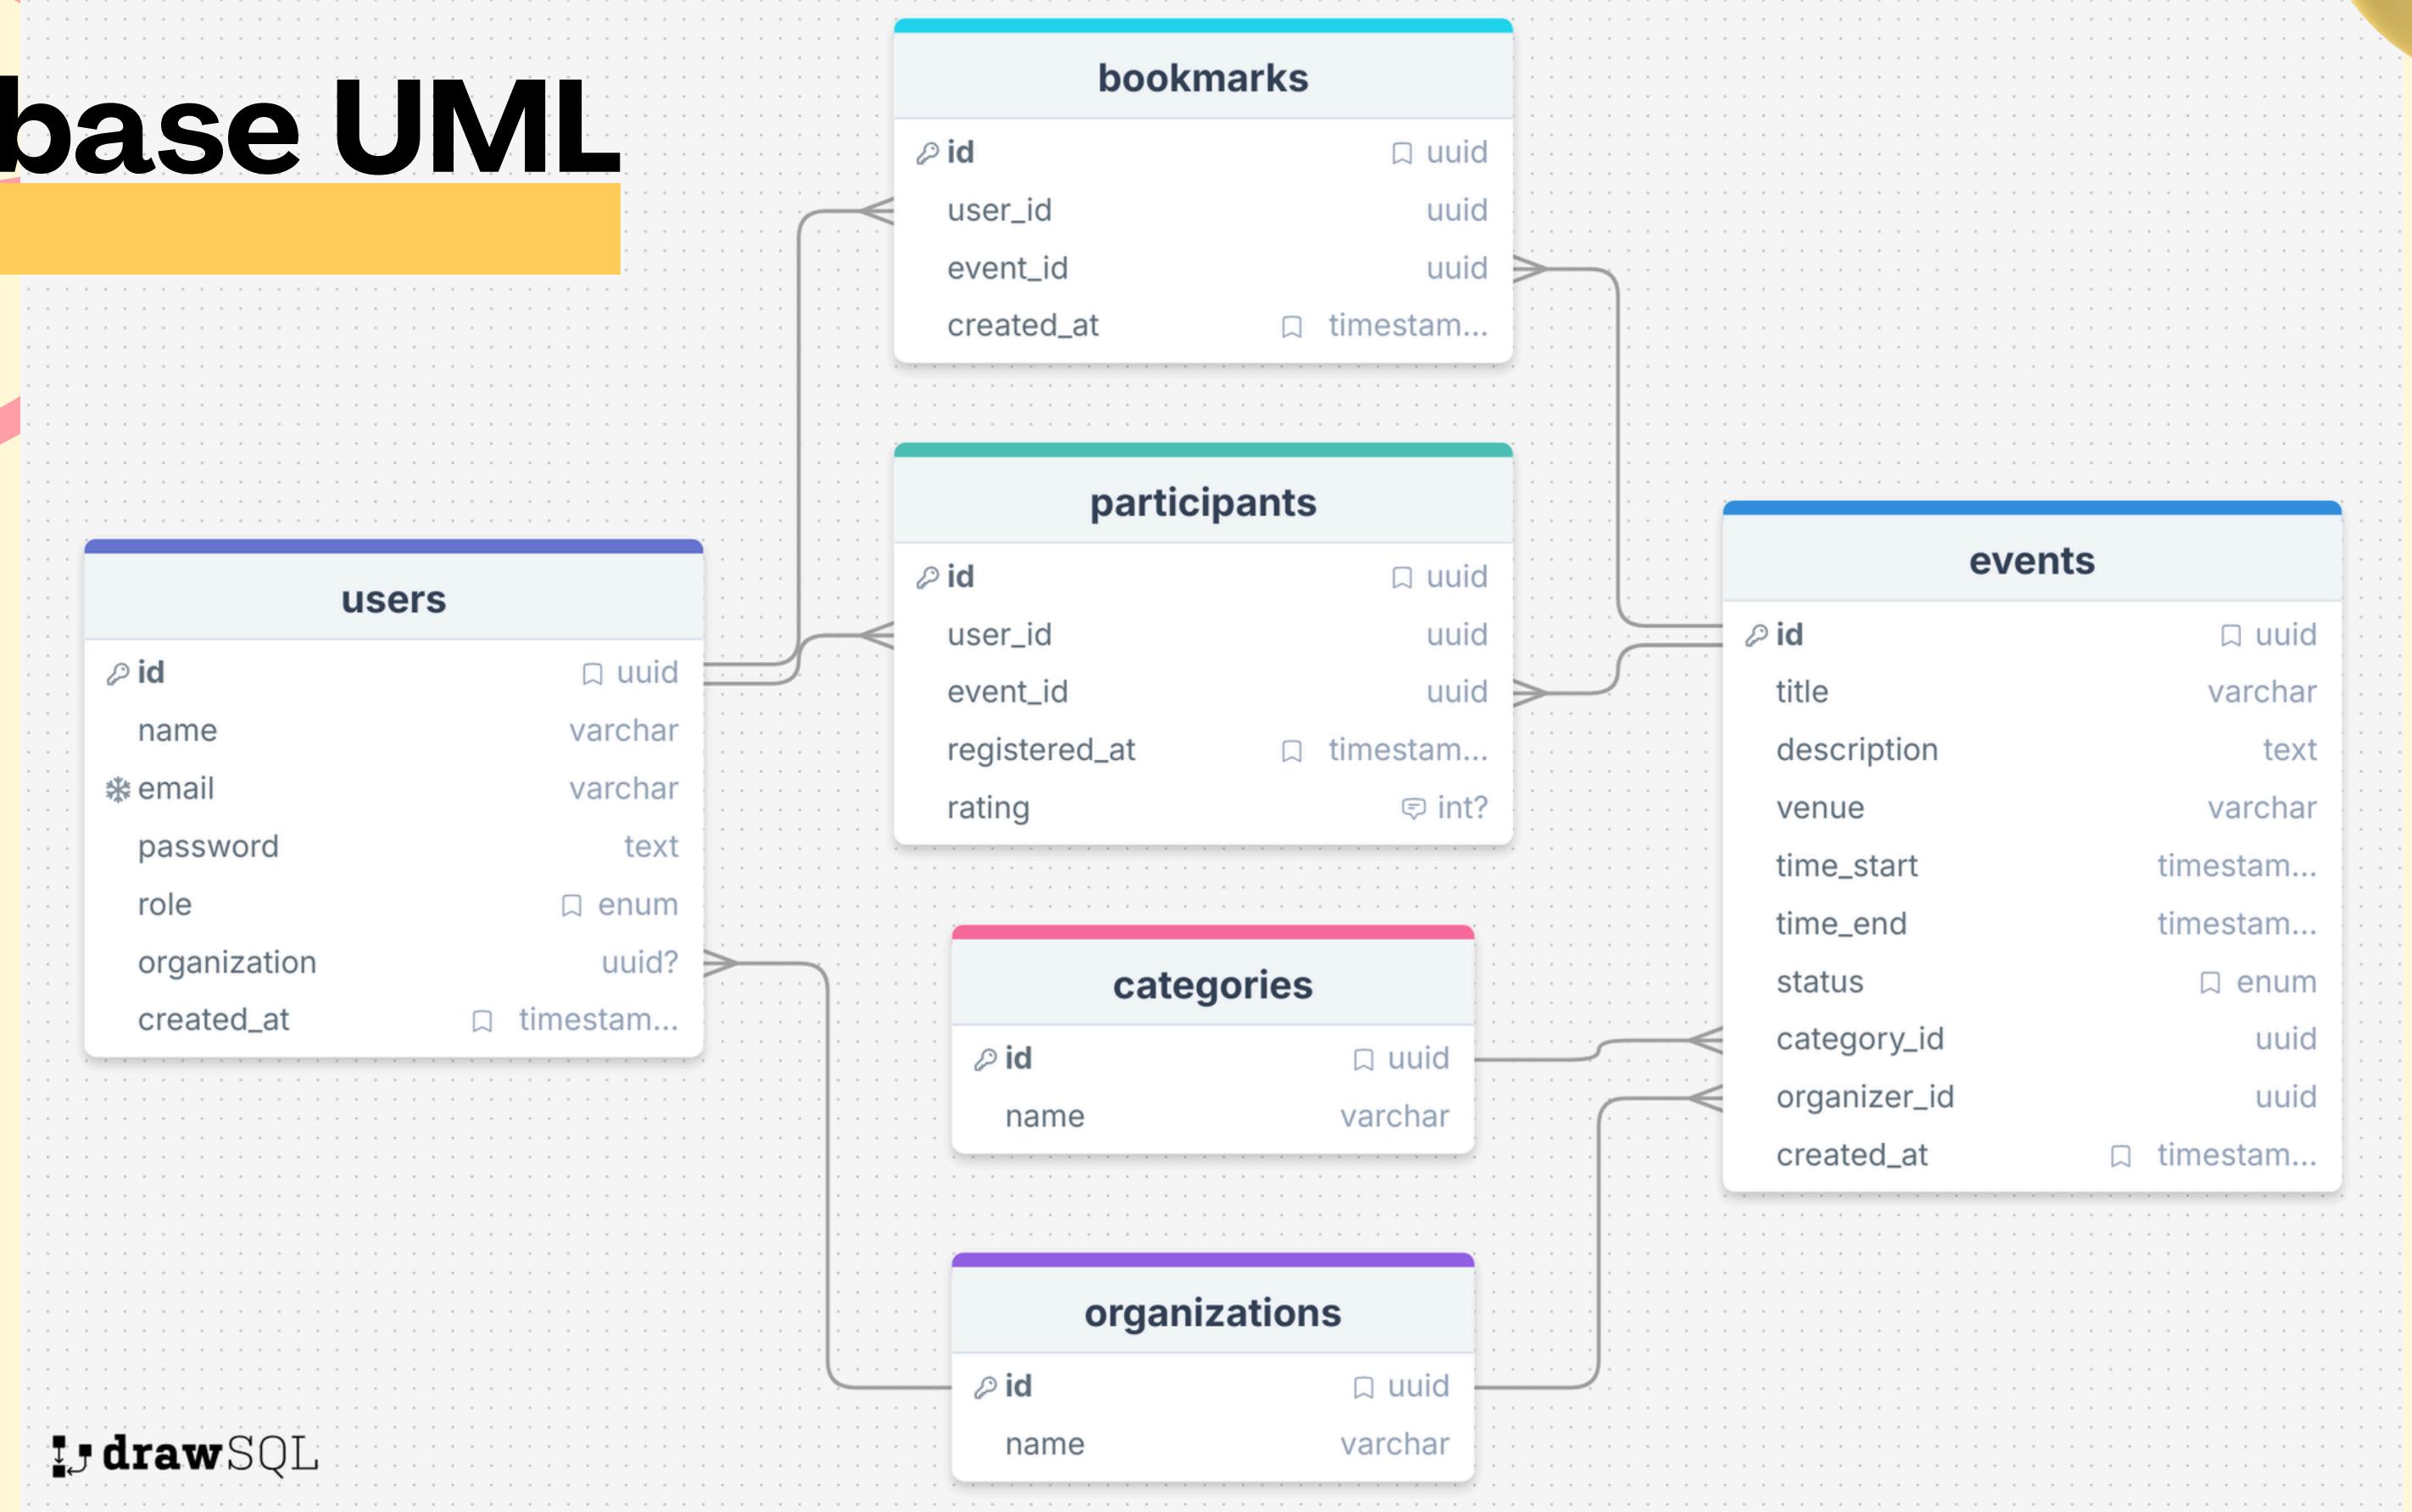

- React JS
- Vite js
- Tailwind CSS

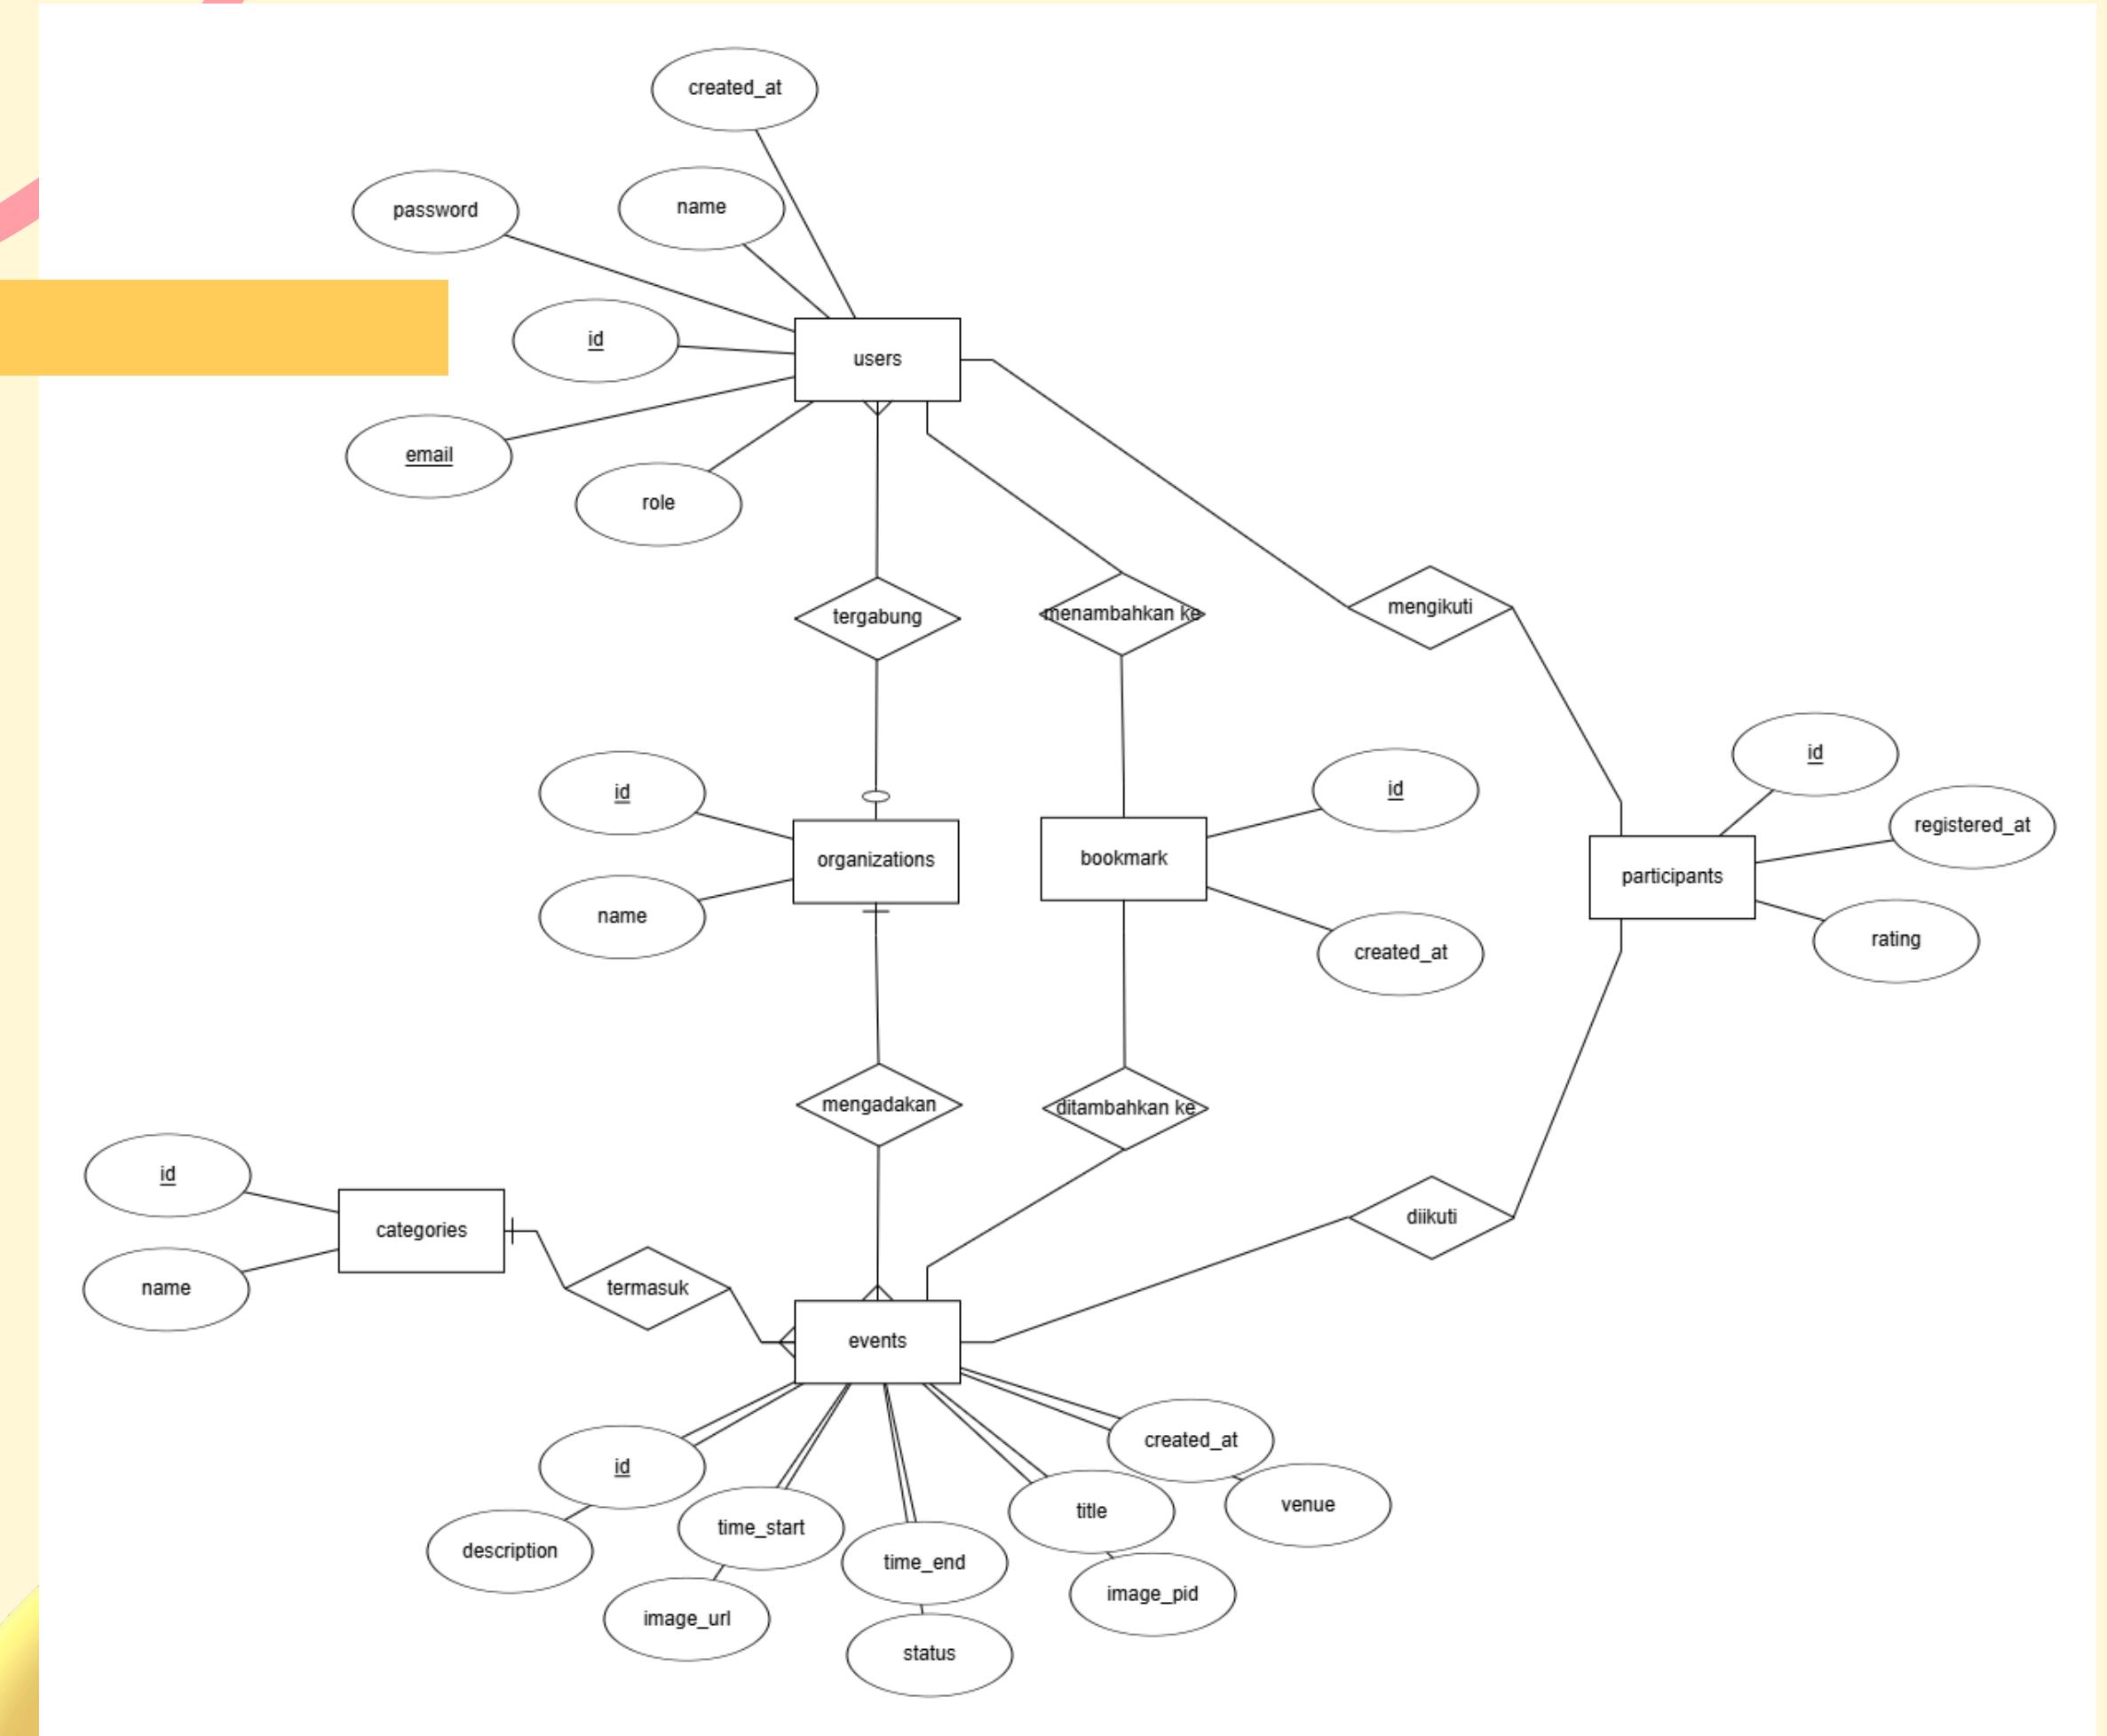

Backend, API

- Node JS
- Express JS
- PosgreSQL
- NEON
